Ananya Sharma

B.Tech Computer Science (Fresher)

Profile

Computer science graduate with hands-on full-stack experience from an internship and college projects. Comfortable with Java, Python and React, with a strong base in data structures and algorithms. Looking for an entry-level software engineering role where I can learn fast and ship real features.

Experience

Software Development Intern

Jan 2025 – Apr 2025

Infotech Solutions Pvt. Ltd. · Pune

- Built reusable React components for the customer dashboard used by 2,000+ users.
- Fixed 30+ reported bugs and raised unit-test coverage of the checkout module to 78%.
- Helped tune the CI pipeline, cutting median build time by 15%.

Education

B.Tech, Computer Science & Engineering

2021 – 2025

COEP Technological University · Pune

CGPA 8.6 / 10

Higher Secondary (Class XII), CBSE

2019 – 2021

Delhi Public School · Pune

89.2%

Projects

Campus Eats — canteen ordering app

github.com/ananyacodes/camp...

React Native · Firebase · Node.js

- Built a cross-platform college canteen ordering app used by 500+ students.
- Implemented live order tracking on Firebase Realtime Database.

Study Buddy

github.com/ananyacodes/study...

Python · Flask · SQLite

- Created a study-group finder that matches students by subject and timetable.
